The following have been modified:

52.212-2 EVALUATION--COMMERCIAL ITEMS (JAN 1999)

(a) The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors shall be used to evaluate offers:

Factor 1

Contractor COE Validation, or NELAC/NELAP Certifications: The contractor shall submit evidence of applicable certification or validation with their offer. Failure to provide at least one current certification or validation will be basis of refection of the offer. Factor 1 is significantly more important than Factors 2 and 3.

Factor 2

Technical Capability of the analysis offered to meet the Government requirement: The analysis offered must meet the necessary Detection Level for each type of analysis identified in the contract. The contractor shall fill in the Practical Quantitation Limit (PQL) or Method Reporting Limit (MRL) and Method Detection Limit (MDL) that the lab is capable of meeting for each type of test shown in the space provided in Schedule B for the Base Year CLINs. These limits shall be used for all option years as well. Factor 2 is somewhat more important than Factor 3.

Factor 3

Past Performance: The contractor shall submit past performance information in accordance with FAR clause 52.212-1 Paragraph (b) (10). The government intends to contact references and ask questions concerning the following sub-factors, but not limited to these questions:

Sub-factor 1

Quality of tests performed. Sub-factor 1 is significantly more important than Sub-factors 2 and 3.

Sub-factor 2

Quality of reports submitted by the contractor. Sub-factor 2 is significantly more important than Sub-factor 3.

Sub-factor 3

Timeliness of the contractors testing.

In addition the Government may use other sources to verify Past Performance, at its sole discretion.

Factors 1, 2, and 3 when combined, are significantly more important than price.

Factor 4

Price.

(b) Options. The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s).

(c) A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.
